

Synapse + Yale Scientific Magazine

2020 SCHOLARSHIP

PROMPT

From the discovery of CRISPR-Cas9 to the development of the atomic bomb, scientists have dedicated their lives answering some of the world's deepest mysteries. In this process, they must strike a balance between scientific advancement and societal obligations. How do you envision science should interact with society?

GUIDELINES

Articles must be between 600 and 1000 words. If you would like to respond to the prompt in a different medium (e.g. art, photography, poetry), email [**yalesynapse@gmail.com**](mailto:yalesynapse@gmail.com) for more guidance.

ENTER TO WIN:

- **\$200 Scholarship**
- **Exclusive one-on-one workshop with a Yale Scientific Magazine Editor**
- **A feature in the latest Yale Scientific Magazine issue**

DEADLINE: SEPTEMBER 25
